## COMPANY SOLUTIONS CODES

(Used for NEBC'S annual print *Services & Products Resource Guide* & the *Solutions Provider Locator* function of the NEBC website)

### INSTRUCTIONS

Our goal is to make it easy for **potential customers** to find appropriate products and services. Thus, services are described from the buyer's perspective - regardless of how you may define yourself. Note that **prospective employees** also use these print and on-line resources to find firms that match their interests.

Service and Product offerings are listed under 7 categories:

- ◆ **Business Services – General**
- ◆ **Energy & Efficiency**
- ◆ **Environmental Protection & Cleanup**
- ◆ **Sustainable Development**
- ◆ **Waste & Recycling**
- ◆ **Water Supply & Wastewater**
- ◆ **Other Resources**

On the following pages, indicate the solution areas that your organization focuses on. If a sub-specialty is important, include it in your company description. Note that website visitors can do a text search on the contents of the company descriptions.

**PLEASE NOTE: *Only check the solution areas that your firm actually delivers in the Northwest.*** Checking too many or inappropriate boxes can muddy the message you are trying to get across about your company and can lead to unhelpful contacts. Items listed as "Legal Services" are restricted to law firms only.

If you would like a solution area added, enclose a note and it will be considered. For any questions, or to update your online profile mid-year, contact Diane Thornton, Operations Manager at 503-227-6361 or [diane@nebc.org](mailto:diane@nebc.org).

#### STEP ONE

Please indicate your primary service category – the one where your firm derives the majority of its revenue or activity in the Northwest. This is for statistical purposes and will not be published.

- Business Services – General
- Energy & Efficiency
- Environmental Protection & Cleanup
- Sustainable Development
- Waste & Recycling
- Water Supply & Wastewater
- Other Resources
